Education

Maple High School — Toronto, ON

IB Diploma Programme, Ontario Secondary School Diploma — *Expected June 2027*

- Average: 95%+; Principal's Honour Roll with a 97% average in Grade 11
- IB Higher Level: Chemistry, Economics, English
- IB Standard Level: Mathematics, Physics, French, Philosophy
- Subject awards in Physics, Philosophy, Physical Education, and English

Projects

Swarm Robotics Research Paper | *The Knowledge Society* — Aug. 2026 - Present

- Researching and writing a paper arguing that swarms of small robots could study ecosystems and microbiomes while disturbing them as little as possible
- Reviewed ~15 research papers and articles on swarm behaviour, ecological field methods, and microbiome sampling
- Compared current ways of monitoring ecosystems with what a robot swarm could do, including where swarms fall short
- Publishing on Medium and sharing with CS Club members

Experience and Leadership

Co-President, Computer Science Club — Aug. 2025 - Present

Maple High School — *Toronto, ON*

- Co-lead a 23-member club, with ~15 members at a typical weekly meeting
- Co-designed and taught 20+ lessons on syntax, loops, data types, methods, and AI ethics, plus a Google NotebookLM workshop
- Built slides, live coding demos, and practice problems for each lesson, and helped members debug their code during sessions
- Prepared members for coding contests with practice sessions on past CCC problems; more than half of the club then wrote the Canadian Computing Competition
- Plan lessons in advance with the executive team at weekly planning meetings, each exec teaching topics they care about most
- Design posters and social media posts to promote the club through school announcements and Instagram

Executive, Lesson Planning, Robotics Club — Sept. 2026 - Present

Maple High School — *Toronto, ON*

- Writing the C++ code behind the club's robotics lessons for 30+ Arduino kits arriving in November 2026
- Building and testing example programs that members will run, modify, and debug
- Planning hands-on lessons that show how the code and electronics work together

Student — Aug. 2026 - Present

The Knowledge Society (TKS), weekend program

- Attend weekend sessions on emerging technologies such as AI and robotics
- Held ~10 one-on-one conversations with TKS students from around the world, including a technical exchange with a student in Dubai on how API calls work
- Researching and writing a paper on swarm robotics (see Projects)

Assistant Camp Counselor, STEM Camp — July - Aug. 2025

Vellore Village Community Centre — *Vaughan, ON*

- Taught basic chemistry, physics, and math to 35 to 40 campers aged 4 to 7, two full days a week, following the camp's curriculum (~110 volunteer hours)
- Turned experiments such as foaming acid-base reactions, the aerodynamics of flight, and pulleys into explanations young children could follow
- Set up and ran experiment stations with the lead counselor and kept groups of ~8 campers safe and on task

Tae Kwon Do Instructor Sept. 2019 - Oct. 2020

Pulse Academy *Toronto, ON*

- Taught a class of 16 students aged 7 to 10, from white belt to red belt, 2 to 3 times a week; 12 of 16 (75%) moved up to the next belt
- Corrected each student's form, explained techniques step by step, and ran warm-ups at the start and end of each class
- Prepared students for belt tests by demonstrating each pattern and checking who was ready
- Provided reports to the headmaster on each student's progress; taught until the academy closed during COVID-19
- Trained for 7 years and earned a black belt in 2021

Centre, Basketball Team 2026 Season

Brodie League, Division 3 *Toronto, ON*

- Played 14 games and worked out game strategy with teammates; the team reached the playoff quarterfinals
- Practiced with the team weekly and anchored the defence in the paint as centre

Awards and Competitions

Principal's Honour Roll, 97% average	Grade 11
Physics Award	Grade 11
Philosophy Award	Grade 11
Physical Education Award	Grade 10
English Award	Grade 9
Sir Isaac Newton Physics Exam, top 5 in school	May 2026
Canadian Computing Competition, passed	Feb. 2026
Fermat Mathematics Contest, completed	Feb. 2026

Skills

Electronics: Arduino, breadboard circuits, basic sensors and motors
Programming: C++, Python, Java
Communication: Teaching and lesson planning for ages 4 to 17, public speaking
Tools: Claude Code, Replit, Google NotebookLM, Obsidian, Notion, Google Workspace
Languages: English, French (intermediate)
